

Strategies for supporting pupils with Special Educational Needs and Disabilities in Science lessons

Area of Need	How we support our pupils to succeed
Communication and	Provide clear and simple instructions.
Interaction	Check that the child understands the task before
	starting.
	Use the child's name when asking a question.
	Use of a visual timetable.
	Use of a task management board.
	Allow children extra time to process new
	information.
	Pre teach vocabulary.
	Provide written and pictorial instructions.
	Allow discussion and sharing of ideas to build
	verbal skills.
	Scaffold learning so it is accessible.
	Use of non-verbal gestures.
	Eye contact.
	Give the child time to respond. Match your language to the language of the
	child.
	Provide a range of ways to show outcomes –
	photos, diagrams, labelling, posters.
	Vocabulary cards/mats with visual representations.
Cognition and	Provide word banks/mats to support vocabulary.
Learning	Model how to use equipment before the lesson.
J	Ensure clear and concise instructions are given.
	Take the time to pre-teach vocabulary.
	Use small, structured steps for each part of the task.
	Allow for children to record their learning in a
	variety of ways – photos, posters, dictating.
	Allow for children to explain an experiment/results
	including in words and pictures with
	contextualisation.
	Repeat instructions in a variety of ways.
	Provide a writing frame to support writing.
	Scaffold learning to support children's individual
	needs.
	Model how experiments should be completed.

	Support children with their organisation – especially
	in regards to equipment.
Social Emotional and	Children are prepared before the lesson –
Mental Health	instructions for carrying out instructions shared and
	talked about beforehand.
	Use a visual timetable so children know what the
	day looks like.
	Consistently implement expectations.
	Ensure there are adults who have trusting, positive
	relationships with the children.
	Provide opportunities for children to ask questions.
	Use of WINE and PACE.
	Use simple, specific instructions that are clear to
	understand.
	Understand your student's skills, and where their
	starting place is.
	Use of TIS strategies.
	Ensure outcomes are clear so children are aware
	when they achieve the outcome.
	Allow child to observe rather than participate if
	necessary.
	Carefully consider seating plan.
	Avoid seating plan
Sensory and Physical	Use of movement breaks to refocus concentration.
	Familiarise children with equipment beforehand.
	Speak clearly and slowly so that children can
	understand what is being said.
	Check personal equipment such as hearing aids
	before the lesson.
	Ensure backaround noise is minimal.
	Give enlarged pictures/diagrams.
	Provide an equipment list.
	Give time to practice how to use equipment.
	Consider alternative methods of recording work.
	Ensure work spaces are organised.
	Ensure all staff in the lesson are aware of any
	sensory needs.
	Provide activities that require movement for
	children who struggle to sit still.
