Homework Grid – Class 2
Spring Term

How this document is to be used:

The children have been set 9 pieces of homework to last over the half term. The children can pick and choose the activity they would like to do each week. The grid is separated into 3 rows, with the first row collecting the most house points and the 3rd row collecting the least. Homework is to be submitted by the beginning of each week, **this can be done through Google Classroom**. Your child only needs to do one piece of homework a week. Have fun 😊

Class 2 Homework Grid Spring Term

House
Points**

Research Roald Dahl and create a poster that provides some interesting facts about the author and his books.

Life in the 1950s was very different to life today. What ONE thing you have today which was not around in the 1950s could you not live without? Draw it and explain why you need it!

Write a letter to Roald Dahl. Think carefully about what you would have liked to ask him. Remember, presentation is important

5

Go on a mini-beast hunt!
Make a tally chart of the creatures that you find.

Using natural materials you can find in your garden or local area, create your own spiral artwork in the style of Andy Goldsworthy. Take a photograph to share with us.

Draw and label the food chain of an owl. Add (as appropriate) the terms herbivore, carnivore and omnivore

3

Write a description of a Roald Dahl character using lots of amazing adjectives. Tell me about their appearance and their personality/character.

Draw your favourite Roald Dahl character. Quentin Blake drew using a light box, so it's fine to trace them if you want to! There are also some great tutorial videos on YouTube.

George's Marvellous Medicine made Granny terrifically tall. If you made a magic medicine, what would it do to whoever/whatever took it? Make a label for the medicine bottle!
